

AIR BEAM

Gain confidence on the beam without risking major injuries!

Lower your fear barrier and the chance of injuries while practising beam exercises at home, in your garden or gym! Thanks to the 10 cm wide and 2.5 mm thick center line, gymnasts feel the edge of the beam, enabling them to focus on their landings.

The total width of the AirBeam is 40 cm, which is wide enough to land next to the beam without spraining an ankle. The AirBeam comes in lengths of 3 m and 5 m and is available in pink, blue and our new Spark color.

- Raised center line
- Easy on the body
- Completely silent

Required blower: Foot pump

Inflation time 3m 45 sec

Adjust the pressure to your preference
